

Una panchina ispirata all'estetica del legno immagazzinato, fatto di tavole solide di legno che sono saldamente fissate con 6 viti in acciaio inox. Blocco robusto su sottili gambe d'acciaio, quasi sospese sul pavimento. L'invecchiamento è graduale e dà pregio al legno. La panchina è fornita in moduli che possono essere combinati in varie linee o set. Modelli particolari possono servire ad esempio anche come portabici o protezione per alberi. Il caricatore USB incorporato potrebbe essere utile per coloro che amano stare fuori un po' più a lungo. Entrambi gli accessori pratici e accattivanti per le panchine con schienale sono un robusto tavolo in acciaio destinato a contenere bibite, laptop o libri. La retroilluminazione a LED, disponibile per tutta la gamma di prodotti Woody, viene all'attenzione di sera. Woody pensa anche ai più piccoli, per questo fa parte della gamma anche la versione per bambini con seduta ribassata.

Struttura d'acciaio zincato rivestito con verniciatura a polvere con doghe di legno massiccio. Le doghe di legno sono collegate con aste in acciaio inox. Disponibile con braccioli. Autoportante, ancorato sotto o sopra la pavimentazione.
